PERSONAL PROFILE

Hi, I'm Kingsley Ndonake a passionate and dedicated Software Engineer with a strong background in Backend development. I am a certified Software Engineer and I'm committed to solving problems. I am currently working on my brand "AdoozTech

Throughout my career, I've had the opportunity to work with C programming language, Python, Javascript, Bash, Git, Docker, MySQL, Puppet, Fabric3, and a lot more other technologies, and I'm always eager to learn and take on new challenges. I'm known for my work ethic, I'm a team player and I'm a quick learner.

I have a strong technical skillset, including proficiency in multiple programming languages and expertise in software development methodologies and system software technologies.

I am a strong communicator and collaborator, passionate about mentorship, and knowledgeable about the software development process and emerging technologies. I believe in the power of continuous learning and growth. I'm dedicated to staying updated with the latest trends and technologies in my field to provide, I'm committed to taking on more challenging projects and leading teams to deliver exceptional results.
